

Investment Management Academy

Training for Financial Advisors & Wealth Management Teams

2016 Program Outline

Online Training from CapitalWave Inc.

Technology Enabled Learning™

CapitalWave Inc.
TECHNOLOGY ENABLED LEARNING

CLOUD BASED TRAINING:

Every organization seeks to insure that new graduates, new hires, and current employees add value to the business quickly and consistently. It has become ever more critical to onboard and train employees cost-effectively, as well as to ensure all staff are up-to-speed with new products, new techniques and changes in the marketplace.

The Investment Management Academy provides the latest market training delivered in a format that is the latest talked about solution by forward-looking firms such as Gartner, Cisco and Forrester. Our solution is video-based training deployed via the cloud, and supported by written content, quizzes, exams and trainer access. The highest rate of learning adoption currently is via video-delivery. Not only does it provide repeatable and flexible delivery, but users are better engaged, capable of accessing training from any device, and remain in a managed program. Video training is typically delivered for a fraction of the cost compared to traditional live-training formats.

Our *Technology Enabled Training* is available via any internet connected computer, tablet or smartphone. The entire catalog, as well as a customized group of specific programs, can be deployed across your entire company.

For employees

- Participate in a scheduled program
- Integrate training with daily workflow
- Explore topics in all aspects of the Capital and Wealth Markets
- Increase your financial acumen and skills
- Research individual program to find answer to specific questions

INVESTMENT MANAGEMENT INTENSIVE

The Investment Management Intensive course is equivalent to a 5-day live training program designed to prepare delegates for a career working in the wealth management and financial advice markets. Covering the key instruments that are traded and explains their key features, risks, how they are priced and traded. The program also familiarizes the delegates on the various aspects of Investment Management, Economic Analysis, Portfolio performance and risks.

There is no formal pre-requisites for the course. The program is designed to provide the knowledge and skills required for new entrants and experienced advisors in the financial and wealth markets. The main target audience is new hires, as well as both internal and external advisors in the investment management markets. It would also be appropriate for existing junior staff seeking promotion.

The course is delivered using an engaging combination of online video instruction, case studies, activities and exercises. It also includes a discussion forum for delegates to engage directly with the instructor.

1. Investment Management Overview

- Fundamentals of IM
- Asset Allocation and Economic Analysis
- Investment Analysis
- Investment Strategies
- Avoiding Common Investment Mistakes
